

IT HAPPENED TODAY

Adler Denies Red Charge Of Woman

People
Marion's player Larry Adler denied a woman's charge that he is a pro-communist, but admitted having several unimpeachable associations with left-wing groups.
A federal grand jury in a \$200,000 trial against Mrs. Hester McCullough, Greenwald, Conn., housewife.

Britain

Labor party leaders will shape their policy for the next general election at a private weekend conference to be held at Dorking, Surrey, May 26 and 27.

Miscellaneous

A burning C-54 transport plane and a helicopter sent to rescue its crew both crashed but all eight men involved in the two crashes escaped without serious injury.

Crime

Labor relations in the newspaper business have improved to a remarkable extent during the past year, the American Newspaper Publishers Association was told. Report to fifth annual ANPA meeting said "substantial progress" had been made "whereas retrogression has occurred in other industries."

Tragedy

Angela Grissler, 3, was crushed to death in a two-story apartment building when a tenant in her floor, who was stepping out, fell from the balcony, striking her.

Murder Trial End Seen This Afternoon

Trials of Hong Sui Chin on charges of murder was to go to the jury this afternoon. Yesterday the accused was on witness stand for five hours as he testified that he had no part in a robbery that led to death of Sam Yee, Chinese market gardener.

Firm OK's Canada Pipeline Route

Alta. Gas Company Repeats Offer To Make All-Canadian

— OTTAWA, April 27.—(CP)—Representatives of the Alberta Natural Gas Company today reiterated their willingness to follow an all-Canadian natural gas pipeline route from Alberta to the Pacific Coast amid a sharp exchange of name calling.

Ralph Maybank (L.—Winnipeg South Centre) parliamentary assistant to Resources Minister Winthrop, who has been opposing the company's plan to build a pipeline to the coast, said he was not in a position to limit discussion on the possible route to be used by the company.

The whole aim of some of the filibusters here is to establish a monopoly," he charged.

Heard Green (PC—Vancouver—Central) who has been opposing the bill, jumped to his feet to demand an immediate recess.

FLUSHED WITH ANGER
"That is an insult," said Mr. Green, his face flushing with anger.

The exchange came to an end when Mr. Maybank withdrew the remark with the words:

"I withdraw, but it is on the record."

Both the Alberta Natural Gas Company and Prairie Provinces Limited are seeking legislation for a pipeline to operate pipe lines.

YELLOWHEAD REJECTED
Concentrating on the southern routes either through Canadian territory or partially through both Canada and the U.S. A. F. Dixon, Alberta Natural Gas Company spokesman, said he had rejected the idea of a Yellowhead pipeline for his proposed pipe line.

Previously, George Prud'homme, MP for Edmonton West, saying the line suggested that the committee had evidence on the merits of a line

'SAUCER' WAS REALLY THERE

A "saucer" was seen, April 27.—(BUFP)—That "something" appeared line as the crew of the plane appeared to see a "saucer" across the sky. The plane was flying at 10,000 feet and the "saucer" was seen to be a new type of aircraft.

Boeing aircraft plane in Seattle, it was a "saucer" military "saucer" bomber on a test flight.

W. Thompson of the USAF was posing the plane which he said was travelling at 30,000 feet.

Stettler Field in Province

At its sixth week, CPE's "Have 'N' 8" has been the most popular of the CPE's "Have 'N' 8" as a dual-purpose producer, showing practice is to produce from only one side even when oil from both is available.

VITAL IMPLICATIONS
At Hays, the D-4 oil will flow through the ordinary production tube inside the casing. The D-4 oil will be produced in the space between tube and casing. The experiments will be tested within a few days.

The Stettler development has important implications for future Alberta oil production. The 20-mile stretch between Edmonton and Hays, east-southwest of Calgary, has not received the attention given intensively to Edmonton area.

The new field will direct attention to the "Have 'N' 8" field in that section of the plains.

U.K. Recognizes Arab Annexation

London, April 27.—(Reuters)—Britain today officially recognized Hashemite Jordan's annexation of Arab Palestine and at the same time accorded full de jure recognition to the state of Israel.

Kenneth Younger, minister of state, announcing this in the House of Commons, said Britain's recognition of Israel was subject to explanations of two points.

The British government, he said, was unable to recognize the sovereignty of Israel over that part of Jerusalem she occupied pending a final settlement.

DAY BY DAY

Clearing House Figures Show Slight Drop

Clearing house figures for Edmonton banking transactions show a slight drop in several months, for the week ending April 23.

Total for the week was \$13,646,919, an increase of \$2,782,919 over the same period of 1949.

Officials at the clearing house however report bank clearings for the first quarter of 1950 are still much above the same period of last year.

Figures for the three month periods are, 1950, \$243,189,692; 1949, \$229,406,317.

Thieves failed last night to open a safe at Westmount Garage, 1101 125 street, after knocking off a policeman.

Police said a broken panache, a rubber mallet and several other articles, all belonging to the garage, were found lying near the broken safe.

There was approximately \$100 in cash and change in the safe.

Thief of cash box containing \$100 was arrested at the office of the Canadian Co., 104 La Placette Building, was also reported to police. The money was taken from a safe in the reported station. No further details were given.

Alberta's coal production last month was 64,480 tons higher than for the same month of 1949.

Last March, production from Alberta pits was 83,521 tons. A year ago it was 76,648 tons.

The figures were disclosed today in production report of John Cawston, director of mines.

Production last month consisted of nearly 600,000 tons from sub-bituminous fields and nearly 250,000 tons from sub-bituminous pits.

Alberta will receive \$12,500 of the \$300,000 being asked in Canada this year by the United Nations.

This was disclosed by Rennie Hargreave of Edmonton, Alberta representative of the conservation organization.

Hargreave spoke at a meeting of the Red Deer Fish and Game Association last night.

Refresher course in school and municipal administration will be given at Saint John's of Fine Arts this year.

The municipal administration course will be in conjunction with 30th annual convention of Alberta Association of Municipal Secretaries-Treasurers, on May 24 to 27.

The school course will be on Alberta School Trustees' Association, Alberta Divisional Secretary-Treasurers Association and department of Education.

Alaska Governor To Get Honorary U of A Degree

Four honorary degrees of doctor of laws will be presented at May 26 convocation of University of Alberta.

Degrees will be conferred upon Dr. Ernest Gruening, governor of Alaska; Dr. Robert Nease, president of the University of Alaska; Dr. W. C. Cawston, director of the University of Alberta; and Dr. C. C. Cawston, director of the University of Alberta.

The degrees will be conferred by Dr. G. J. McNally, university chancellor, at functions in McLaughlin hall.

Many graduates

Because of the large number of students, it is necessary to hold this year to hold convocation on two days. On May 16, Governor Gruening will give the address.

He will be presented to the chancellor for his degree by President E. J. Hargreave, and Dr. Nease will be presented by Premier Macdonald.

On May 17, Dr. Cawston will be the speaker, and will be presented by Dr. W. C. Cawston, dean of the faculty of dentistry. Mr. Justice Frank Ford will present Mr. Cawston.

Governor Gruening was born in New York City, and completed his education at Harvard University where he obtained degrees in Arts and Medicine. He has devoted his life to law, journalism and government service.

Dr. Nease, president of the University of Alaska, has been a member of the New York Tribune, president and general manager of the Press, and managing editor and editor of The Nation. In the University of Alaska government service he has held many important administrative posts and has been governor of Alaska since 1950.

Dr. Cawston, in addition to his dental practice in Calgary, has been an honorary lecturer in the faculty of dentistry since 1929 and has been an important part in the development of that faculty.

INTERNATIONAL chief of Optimalists visited Edmonton group yesterday to instill officers. Alex Willis, 10829-128 street, left, Edmonton club president, chats with the chief, Franklin A. Steinko, of Washington, D.C.

Photo Survey Starts Here

Edmonton is having its spring picture taken.

Arcel Airlines photographic aircraft are now engaged in a series of surveys of the city itself and an area two miles south, north and east of city limits, and three miles west.

Development Engineer A. W. Haddow said the survey must be done after the snow has gone and before trees and shrubs get their foliage.

Last survey was taken last May, but Mr. Haddow said there has been considerable growth and development, particularly on the city's fringe.

"One of the survey was a tremendous amount of field work by surveyors," said Mr. Haddow. "We did it all the time in laying out improvements."

Last year's survey cost \$1,620 and involved 450 separate photographs.

Building Permits Cause Of Rush

Spring house-building rush hit the city architect and building inspection office yesterday with a \$150,000 permit.

Plan-checkers had to work overtime keeping up with the 74 building permits issued.

The city activities pushed the busy building permits to \$2,500, 240.

Nationalism Revival Denied In Germany

BOON, Germany, April 27 (AP)—West German Chancellor Konrad Adenauer told American educationalists last night that German "national feeling" is the best guarantee against Communism in Germany.

A distinction must be drawn between "Nationalism" and "patriotic national feeling," he said.

He said that reports of a revival of "Nationalism" in Germany were greatly exaggerated.

Tons Of Mud Taken From City Water

Daily Removal Hits 60 Tons From 12,000,000 Gallons

They removed about 60 tons of mud from the 12,000,000 gallons of water used in Edmonton yesterday.

And the city's filtration plant will keep on doing the same thing every day until the Saskatchewan river spring flood is past.

Then the daily mud haul will stop. It is usually 40 and 50 tons a day until the June floods come roaring down. That will again cause the figure to climb back to the 60 tons a day mark.

But even the largest laminae municipal water softening plant in Canada can't get 100 per cent of the present "slough runoff" color and taste out of the water.

CANT REMOVE ALL "Every spring we have the same trouble. It is usually color and smell which has to be taken out with activated carbon, and while we get most of it out, it's impossible to remove all of it," says a plant spokesman.

The cloudy color and the repulsive smell are clearing now, though, and by the weekend the city supply will be back to normal.

Whether water rationing is necessary this summer will depend on how much rain falls. It's not a question of filtration plant or pumping capacity.

SYSTEM EXTENSION This year the city's distribution system is being expanded and extended to a \$200,000 job, "just as fast as it is available and it can be laid in the ground," says Mr. Mount, superintendent of the distribution system.

Two huge new water towers, in Calder and North Edmonton, will help maintain daytime pressure in those districts, and a tower is planned for the city, to ease the load on the city's supply.

But if the summer is a dry one, rationing will again have to be imposed on garden and lawn water.

LARGEST IN CANADA In 1948 the city's new filtration plant, pumping station was put into operation—the largest of its kind in Canada.

It has a capacity of 15 million gallons per day, removing the dirt from river water, taking out dissolved minerals, and killing the bacteria.

The old plant, with a 10 million gallon per day capacity, is being completely renovated to give standby service and to provide for future needs.

A normal day's consumption right now is 12 million gallons, but the difference between a wet Monday wash day and a dry one can be more than a million gallons.

Optimist President Tells Of international's Work

Edmonton Optimist club last night held a moving account of the work of their 40,000 fellow members from Franklin A. Steinko, Washington, D.C., president of Optimist International.

He cited the example of a boy in a reform school in Nashville, Tennessee. Through the Optimist Junior club system he was sent to the United States, Canada, and Cuba.

He cited the example of a boy in a reform school in Nashville, Tennessee. Through the Optimist Junior club system he was sent to the United States, Canada, and Cuba.

"Recently he returned to Nashville to marry the daughter of the head of that same school," said the speaker.

NEW OFFICERS Following his address, the international president installed the following newly elected officers of the Edmonton club: Alex S. Willis, president; Jack S. Brown, vice-president; Lem Munn, program vice-president; Howard Reeve, publicity vice-president; Roy Curwell, secretary; Lloyd Lee, membership vice-president; and Walt Davison, treasurer.

Greetings of the city were given by Ald. Richard Hanna representing the mayor.

An address was given by 12-year-old Lament Boyd, winner of the recent Optimist's public speaking contest, who spoke on "The Need for Optimism."

Included among prominent club officers present at the Macdonald hotel banquet were John Harvey, Optimist International president; Lou Hebert, M.A. president; Ben Rozon, past president; and Reg. Ezon, past president.

Civic Holiday All civic offices will be closed Monday, April 27.

The holiday is included in agreements with civic unions in place of Easter Monday.

In recognizing Dr. Cawston's services to dentistry by the award of an honorary degree, the University will also help to signify the seventy-fifth anniversary of dental education in Canada.

Mr. Charlesworth, born in Windsor, Ont., came to Alberta in 1903 as district engineer and surveyor in Medicine Hat. He played an important part in organizing the department of public works, serving as assistant deputy minister from 1909 to 1915, then being appointed deputy minister. While in this post he prepared legislation for regulating irrigation in the province.

On his retirement from the government service, he became minister of the Eastern Irrigation District, and held that post in 1944 to 1945 in Victoria.

Collection Costs Studied

Chamber of Commerce is investigating the comparative costs of public and private garbage collection in Edmonton.

The council claims that recent city increases in collection rates have caused some property owners to make their own arrangements for collection.

Therefore, it is seeking to determine if garbage collection on a contract basis by a private firm would be cheaper. City garbage collectors would be re-employed by the private firm, the chamber assumes.

CREDIT CARDS The chamber's community affairs committee, which is handling the investigation, also is going to suggest to the Automobile Trades Association that the posted list of gas stations open on Sundays and holidays also show the brand of gasoline sold at the stations. This would be useful to holders of credit cards who need to find a station selling their brand.

The chamber traffic committee is looking into the matter of level licensing with the city to determine if a greater number of warning devices are needed.

Finally, the chamber has announced it will set up a "watchdog" committee to observe government legislation on the Cities Act scheduled to be brought down in the legislature in the 1950-51 session.

The special committee will be composed of lawyers who will represent the city, and study its intention in bringing the different city charters of Alberta into uniformity.

The total estimated value of livestock on farms in the United States on Jan. 1, 1949, was \$10,587,960,900.

Lutherans See Hope Of Filling Vapoc Pulpits

Canada District of the American Lutheran Church has 33 vacant pulpits, Rev. H. H. Hufeldt, Regina, president, said in his annual report to conference in Christ Lutheran Church.

There is no hope of filling the vacancies this year. He hopes that, beginning in 1951, more ministers will be sent by the Regina conference to fill the vacancies.

Rev. P. Mohr, Calgary, reported finances in 1949 set a record and would be equally favorable this year.

Rev. Dr. Rex Schneider, president of the Lutheran Church, Regina, expressed hope that the Regina college would become "The Lutheran College of the West."

Evidence in Your Eye

When a high wind fills your eyes and teeth full of grit on downtown streets and swirls ancient paper and cardboard and bits of debris through the air and drops chunks of dried mud on your hat—there's not much sense to the city engineer's excuse that Edmonton's streets are not cleaned up because too many streets are unpaved and there is not enough cleaning equipment.

All the alibi seem pretty thin when the evidence is in your eye.

Street cleaning has to face a situation as it is, not as it should be.

And the actual situation is so bad as to be unbelievable except to those who live in it.

Every city has mud and dust in the Spring. Mud and dust are part of Spring. But where other cities clear this filth away, Edmonton people have to live with it all summer long.

It is unhealthy. It is unpleasant. It keeps visitors away and harms the tourist trade. It ruins housewives' rugs and furniture.

Proper machinery for removing this mess is highly desirable. It is always cheaper to do such work with machinery than by hand, something the city does not seem to have learned in such things as ditch-digging.

But even unpaved streets keep adding to the dirt when machinery is not immediately available, the only thing to do is to turn loose with enough men and hand

shovels to haul the stuff away and keep hauling it away.

Just as simple as that.

So far as paving is concerned, it would be profitable to double this year's already substantial program which calls for an expenditure of some \$2,000,000.

Edmonton has 83.04 miles of paved streets. Most cities of this size have 200 to 300 miles paved streets.

At least, it would require 125 more miles of paving to bring this city up to average.

It costs \$1,000 per mile per year to oil these 125 miles of streets.

It would cost \$20,000 per mile to pave them with asphalt, or a total of \$2,500,000.

In 20 years, Edmonton will spend that much on oiling—and have little to show for it.

A little calculation will show that it would be good economy to spend the entire sum immediately on one huge paving program, instead of dribbling away money on oil that does not give very satisfactory results.

To get all this paving cleaned up in a hurry would obviate the \$1,000 per mile per year expenditure.

It would materially reduce street cleaning costs.

It would give Edmonton citizens a fine modern system of highways.

It would eliminate most of the nuisance from Spring mud and dust.

Meanwhile, what is needed is quick action with brooms and shovels.

Charges of Police Brutality

We don't believe for one minute the allegations of convicted murderer Joseph Jennings that city police officers beat him to make him change his evidence in the Sam Kee homicide case.

But we do expect Chief Constable Reg Jennings to investigate that charge with scrupulous care and report his findings to the public.

No citizen is going to tolerate police brutality in Edmonton. Nor do the other ten people who are charged with brutality left hanging in the air.

We place no credence in Gilbert's tale because the high ranking officers of the police department argue against it. There has been no suspicion of anything of the kind in Edmonton's history so far.

No Dictators Tolerated Here

When Dr. Lee Dodds, chairman of the Edmonton Boxing and Wrestling Commission, threw a Bulletin sports writer out of a Commission meeting because he didn't like the criticism of that writer he revealed himself as a petty dictatorial unit to occupy any public or semi-public office in this city.

The only person entitled to forcibly close off criticism of his actions is a dictator. We have never heard it rumored that Dr. Lee Dodds was inflexible. In fact, no one on earth claims to be completely inflexible.

The Boxing and Wrestling Commission was set up in this city to control two forms of sport that have a tendency to get out of hand. It was set up to control these sports in the interests of the public and of the public safety.

Therefore the public has a personal stake in every decision and every action of the Commission.

The press represents the public. It has every right, in that capacity, to know exactly what is going on and in behalf of the public, to freely and openly express its opinion.

When Dr. Dodds ousted a newspaperman because that newspaperman had dared to differ with his policy, he is slapping the public in the face.

He is declaring himself to be above criticism. He is telling the public to go soak its head.

Dr. Dodds should be removed from the office forthwith, not because the Boxing and Wrestling Commission is particularly important or because the chairmanship of it carries any great responsibilities for right or wrong, but because dictatorialism should be promptly discouraged in a democracy.

When the public through a public newspaper is not permitted to say what it believes, the situation calls for major surgery.

ODDS AND ENDS

Edward Is No Salesman For the British Crown

His Royal Highness the Duke of Windsor has departed from Canada with the vague promise that he will be back and may sound a good note of this between us and the British.

I trust I will never see him again. I don't think I have ever seen him. I don't think I have ever seen him. I don't think I have ever seen him.

By Harold L. Weir

Edward is no salesman for the British Crown.

He is a man who is not a salesman for the British Crown.

At a time when the Crown has come to be a tremendous liability to the British Empire, it is not surprising that the Duke of Windsor is not a salesman for the British Crown.

Edward is no salesman for the British Crown.

He is a man who is not a salesman for the British Crown.

Food For Thought In Bankruptcies

The last official report on bankruptcy disposes a further increase in the number of businesses which became insolvent last year. That was to be expected.

With competition becoming keener and with the buyers' market changing to a buyers' market, a certain number of enterprises are bound to close their doors.

In a sense, it is good that they should. It means that the least efficient businesses are being eliminated. It means that there is constant pressure upon the remaining businesses to keep improving their methods. Insolventcies serve to weed out those businesses that are not making the grade.

But, while an increase in the number of bankruptcies is natural and gives no cause for alarm, there is a second item in the federal report which should be taken as a warning. It is reported that while there has been a modest increase in the number of bankruptcies in business, in the comparatively small number of bankruptcies reported last year the total debts equalled those reported at the height of the depression.

Too Much Credit Given

Businesses have been climbing too far out on a limb. Too much credit has been granted. There has been too much foolish optimism and too little attention to changing conditions.

Businesses have been allowed to get too deeply involved, with the result that when a crash comes it becomes a real smash.

Modern business is closely interlocked. What happens to one business affects other businesses. Most firms should be cautious, but when you have a serious crash, there is always a few businesses that are left standing.

It is not the fate of any one firm that is the cause of our economic ills. It is the cumulative effect of too much credit given to too many businesses.

In the last depression it was the cumulative effect of a drastic cut down in the number of businesses that were allowed to get too deeply involved, with the result that when a crash comes it becomes a real smash.

Businesses have been allowed to get too deeply involved, with the result that when a crash comes it becomes a real smash.

Businesses have been allowed to get too deeply involved, with the result that when a crash comes it becomes a real smash.

Businesses have been allowed to get too deeply involved, with the result that when a crash comes it becomes a real smash.

Businesses have been allowed to get too deeply involved, with the result that when a crash comes it becomes a real smash.

Letters to the Editor

Dean Defended

Editor, Bulletin—I was brought up in the belief that if the intellectual, there was no necessity of descending to the vulgar. Some of your editorials are obnoxious—not only to those who are intelligent but to my opinion they are also quality for one of your editorial "favorites" "gossamer".

Juneville Delinquency

Editor, Bulletin—Juneville delinquency and teenage mothers often spoken of these days at getting out of hand. This part of our city is becoming a real mess. I would be glad to see the council find out why.

Working Wives Enjoined

Editor, Bulletin—"Mother of Seven" you are right that some women should not take work that a girl needs, but at all times from taking a job would cause much trouble.

Working Wives Enjoined

The Brannan Plan Holds Some Logic

surplus potatoes even at one cent per bushel. The U.S. government is now engaged in the destruction of some 30,000 bushels of potatoes.

Farmers Not To Blame

Do not blame the farmers in various countries for persuading the governments to support farm products and to subsidize them.

The Brannan Plan holds some logic. It is a plan to control the price of food and to ensure that the farmer gets a fair price for his produce.

Time Out

By DICK REDDOES

COMMUNIQUE KINGS
There used to be a good deal of question in local circles as to whether John Ducey, ex-promoter of hot-dog consumption in Bentway Park, or Jack Reilly, glorifier of all things recreational in the Recreation Commission, was the champion long-pose release writer in the city.

The argument had not been settled when Mr. Ducey went to the rim of the Arctic circle to show the 1950 World Series film, and from his hands. The damage caused to his digits by the cold and snow has since prevented him from writing any communiques to press and radio. So for the moment Mr. Reilly is in possession of the title among long-pose release writers in Edmonton.

Both men are outstanding in the field. Both work with no pencil poised at one's elbow. Both are specialists in the live-action press release, a work of several thousand words which is drafted serially and which can be dramatized if desired.

This communication by psychobabble, sometimes attributed to Ducey, is an intended illustration of what affects the subject from preventing a poet to be able to write around it—a interesting to read.

A new star in long press releases is Leo Fumano, vice-president in charge of directing the affairs of boxer Paul. Mr. Fumano works through the medium of letter-to-the-editor rather than with press releases, though occasionally he dashes in the latter form just to show that there is no basic weakness in his stock.

He yields to practically no one in the length of his communiques. And he has a prose style which defies the laws of grammar and usage.

ISSUES CHALLENGE
Fumano's latest work comes in the 400-word size. It issues a challenge to Jimmy Miller to come out of the Calgary woods and defend his world Canadian welterweight title against Paul or Al. Maroni, a couple of characters who would neither fight this nor that.

When I hear of manager Eric Year figuring to take his boy Nolan on a tour of Scotland, I am tormented and unable to stand.

"It is normally below my social standard to advance on behalf of anyone to acquire a just end to a road case, but in this case, and under favorable circumstances, I am begging Nolan to fight either Paul or Maroni."

"It is my considered judgment that Maroni or Paulmer would give Nolan a lesson. Even the opportunity to meet him for his title, I doubt whether he would do Nolan some good, too, because the Scots could dispense with the formality of trying him but to a couple of four-and-fifty to determine whether he can pose man events or not."

PROMISING filly Lady Fairmont, owned by Mrs. N. Stevenson, Edmonton, is hot-walked after a recent early-morning workout at the Exhibition track. Turf season opens in Calgary, May 20, and horsemen all over the prairies are deep in business of readying thoroughbreds for big push.

Mrs. Ingall First Woman To Head District Netters

By Bart Gibb
Making history in local tennis circles, Edmonton and District Tennis Association last night elected Pauline Ingall president for the coming season.

Mrs. Ingall is the first woman ever to head the position. The new ladies club and her husband, Al, have both been prominent in local tennis and badminton circles.

Mrs. Ingall's husband, Paul, was named president of the local classic June 17th. Site of the championships, held at the Gilmora club in previous years, is to be decided at a later date by the committee.

Gilmora officials feel they cannot cover the courts this season due to the growing season. Various dates have been suggested for the latter part of July.

The meeting featured the domestic ruling on the junior age limit. This rule states that a junior player cannot be 19 years of age at the playing year.

Following officials elected were representatives for various tournaments: Interclub play, Lois Tovey; Northern handicap, Mrs. Sophie Mitchell; and City tournament, Graham Cathro.

Hay-Burners Busy Daily Burning Up Track Oval

Closest to the happiest people in town at the change (for the better) in the weather are the horsemen.

Upwards of 85 of the hay-burners are at the Exhibition oval, now of the largest active columns ever. Not that they even begin to tax the stabling capacity.

George Lee, whose particular job it is to find stall space for the thoroughbreds, can put up 60 of them, at a pinch. In other words there's stable room to burn (better touchwood).

Bueller gets on the premises are Alex Hillier, Jay Cowan and Jimmy Sault. This trip is heading most of the exercise chores, being kept busy as a bee in a hutchery from 5:30 to 10 in the morning.

Former jockey Cowan is rated the top exercise boy in the west. Hillier, who has been waging a strenuous fight against increasing poundage these past several years, lately will get his share of mounts this season. He's rated "the best saddlehitcher around."

"I've been thinking a lot about the tournament," Sarazen said yesterday, "and every way I look at it, it comes out Locke."

The U.S. Open title has been carried out of the country only twice in history and not in the last 30 years.

Hall Vardon, the famed English professional, won at Chicago in 1906. Ted Ray, victor's long-time partner and the powerhouse of his era, was victor at Inverness in 1910.

The 1950 Open will be played at Merion Golf Club near Philadelphia. The 1951 Open will be played at Merion Golf Club near Philadelphia. The 1952 Open will be played at Merion Golf Club near Philadelphia.

"Marion is a real test of golf," the diver-darzen, a two-time Open winner (1922-23) said. "It remains a championship of the world."

The 1950 Open will be played at Merion Golf Club near Philadelphia. The 1951 Open will be played at Merion Golf Club near Philadelphia. The 1952 Open will be played at Merion Golf Club near Philadelphia.

Mullen Again Slated To Coach Quakers

Riley Mullen, who took over from Nick Metts as coach of Saskatoon Quakers halfway through the past Western Canada hockey league season, will go to Saskatoon within the next two weeks to sign a contract for the 1950-51 season, the Bulletin learned authoritatively yesterday.

As though confirming the fact that Mullen is slated for a second shot at the Quaker helm, it also was learned that he is negotiating for the services of Brandon Wheat Kings' defenseman Bob Chrystal.

Mullen was one of the referees at Wheat Kings' last out to Port Arthur in the Memorial cup playoffs. Seemingly he was much taken by the play of the rough-and-ready Chrystal.

It's generally agreed that Mullen did a good job as coach of the Quakers. He took over a club that wasn't winning and guided it into the playoffs, being defeated by Calgary Stampers in the WCHL semifinals.

And those Stamps are still red-hot.

EAC Juveniles Work Tonight
EAC juvenile basketball team works out tonight at Diamond Park, at 6:30.

Goos Out Twice In Same Frame
TULSA, Okla., April 27.—AP—Out twice in the same inning—a pair but doubtful honor—came to Tulsa pitcher Bub Cannon in Tuesday night's Texas League baseball game with Oklahoma City. Cannon, having for pitcher Stan Clifford, struck out to lead off his team's half of the third inning when Tulsa batters and seven runs later—popped out.

English Eleven Sailing Soon
MANCHESTER, England, April 27.—AP—Manchester's eleven-year-old club is one of the oldest of its kind in the world. It was founded in 1884 and has since then been a leading force in the development of the sport.

Phillies Seek Replacement For Miller
NEW YORK, April 27.—AP—Manager Eddie Sawyer of the Philadelphia Phillies said today he must make a deal for an infielder before the June 15 deadline.

Public Showings Of World Series
John Ducey announced that the 1949 world series films will be shown to the public Sunday night at 8:30 in the Recreation building.

Currie Talks With Agar
Edmonton's first hockey star, Frank Currie, took in the last game of the Calgary Stampeder-Fort Frances series for the western title. It isn't known if Currie had any particular player in mind who he wanted to see.

Cluthers To Play
Springer's football club will practice tonight at 8:30 in the Recreation building at 5:30. Coach Al Sprague announced that night. Several positions are still open and those interested are asked to attend.

Stan Moher

Sports Editor

City sportsmen—particularly those along the boxing front—generally were perturbed yesterday over the action of Dr. Lee Dodds in summarily ejecting Bulletin sportswriter Dick Beddoes from Tuesday night's meeting of the Edmonton Boxing and Wrestling Commission.

It was almost unanimously agreed that Dr. Dodds had gone off half cocked. That he had exceeded his authority by far. That certainly he had forgotten that, inasmuch as the EBWC is a public commission, he has no right to exclude anyone from meetings.

And hard on the heels of the distressing incident comes a letter from Charlie Dean, former fight enthusiast-promoter hereabouts.

The missive throws further light on shortcomings of the EBWC, shortcomings which certain of the commission members themselves agree exist, but which chairman Dr. Dodds apparently refuses to recognize.

"Why was 'Rocky' Wagner a judge at the recent fight between Geary and Robbins?" the Dean communique opens.

"You will remember that four years ago I was promoting a card, Geary and a Calgary inmate fighter were to have fought the main event. This was cancelled by doctor's orders two days before fight time.

"Wagner was billed in the special event. I wired all over western Canada to find a man to meet Wagner. Finally a man phoned me from Calgary where Wagner was training at the time, and passed himself off as 'Flanigan' of Montreal.

"When the party arrived from Calgary, Wagner introduced 'Flanigan' to me as 'Flanigan' and he fought as 'Flanigan' the bout ending in the first round. (Ed. note: Wagner scored a KO.)

"Wagner and 'Flanigan' took 60 per cent of the gate. 'Later it became evident that the 'Flanigan' who fought was a Calgary fighter, fighting as a pro for the second time. The EBWC suspended both Wagner and 'Flanigan'."

"Now Wagner appeared as a judge at a fight under the EBWC. What does that mean?"

"This same Dr. Lee Dodds last fall gave the Recreation Commission the right to sponsor amateur boxing over the Edmonton Amateur Boxing and Wrestling Association.

"But if it had not been for me like Ernie Zurich, Jim Parsons, Alf Fansy, as well as the Bulletin's John Givens, amateur boxing would have died.

"Is someone trying to kill boxing?"

Comments to repeat, chairman Dr. Dodds' action in refusing to permit sportswriter Beddoes to remain at Tuesday's meeting was highly reprehensible.

The same is the intent of the present move to oust a reorganization of the EBWC, because it's known that at least half the members of the eight man commission, and maybe more, since have taken a dim view of Dr. Dodds' autocratic behavior.

I don't feel, as Mr. Dean implies, that anyone is purposely trying to "kill" boxing. Neither do I know whether or not the suspension meted out to 'Rocky' Wagner, following the 'affaire Flanigan' has been lifted.

Presumably, though, it has. Because one can't imagine even the EBWC permitting a suspended ex-fighter to act as judge for one of its cards.

ESKIMOS SILENT REGARDING NEGRO AKE

A British United Press story out of Hamilton yesterday said that swift-running Tom Casey, ex-Hamilton Wildcat backfielder, may have signed with Edmonton Eskimos.

Casey refused to confirm or deny the report, but it was strongly hinted that Eskimo coach Annis Stukus had landed the Negro ace.

Here in Edmonton, Eskimo manager Al Anderson was silent on the story. His only comment was "No comment."

However, it is known that Edmonton has contacted Casey and that he is interested in attending medical school at the University of Alberta.

Other recent reports have had Casey playing with Montreal Alouettes and Winnipeg Blue Bombers.

Cricket Underway

Opening game of the Edmonton Cricket league, scheduled for Sunday, will bring together Edmonton C.C. last season's champions, against a team representing the rest of the league.

RACE SCHEDULED MAY 6

Derby Contest Closes May 4

This time next week Louisville, Kentucky, will be teeming with thousands of racing fans from the continent. From the four corners of the map they'll come, travelling by plane, train, car, and on foot to see the fabulous Kentucky derby.

And on May 4, the day of the storied Run-for-the-Roses, mint juleps will shake in non-stop steady hands when the bands strike up the strains of 'My Old Kentucky Home' to usher the horses to the post.

Some homes they'll be, too—the cream of the three-year-old crop. There will be Willie Goetz' York, current favorite to win the classic. Horses hailing from California seldom run well in Louisville, but the Host could be the first Golden State steed to win the derby in 28 years.

Hill Prince will stand to the starting gate, as will 'Middleground, Oil Capitol and 'Theory. Mr. Trouble, Singtime and More Sun are likely to be among the starters, and all are listed at 20-1 at the moment.

Greek Song and French Admiral will add a United Nations touch to the setting, and are held at 30-1 today.

Racing fans who contemplate entering the Bulletin's third annual Kentucky Derby contest are reminded that entries close Thursday, May 4, at midnight. One entry per person is the rule, and the fee is to correct name. The first four horses across the finish line.

First prize is a pass to the 14-day race-meeting, scheduled for the exhibition only, starting Aug. 31. Second award is a daily pass for half the meeting, third is a pass for two, for one day, fourth a single pass for one day.

Any ties will be run off at the time of the playoffs, May 13. Just fill out the entry blank and mail it to the Bulletin sports department.

OIL CAPITOL WILL TEST NEW 'SLIPPERS'
LEXINGTON, Ky., April 27.—(UP)—Tom Gray's Oil Capitol gets a chance to test his new felt-lined racing shoes today when he meets 11 other three-year-olds in the \$20,000 Gold Grass stakes—one of the final turn-ups for next week's Kentucky derby.

Whether Oil Capitol's new 'slippers' will help him regain his sensational winter form will be decided in today's mile-and-a-half test over the Keeneland Oval. The son of Mahmoud certainly has drawn a classy field for the experiment.

Eleven of the scheduled starters are eligible for the derby. The only non-eligible is C. C. Buckley's Big Ike, winner of the Arkansas derby.

BALTIMORE — Grand Circuit 1500 harness racing purses top \$2 million for the third year.

Pollet Pitches St. Louis To 3-2 Win Over Reds

NEW YORK, April 27.—(CP)—Howie Pollet, St. Louis, has found a little of his old form.

The 26-year-old winner of last year's season, yesterday set down the shaky Cincinnati Reds on five hits for a 3-2 victory. And the big southpaw would have had a shout but the usually reliable Stan Musial not dropped a fly ball which would have been the third out.

Brooklyn's front-running Dodgers earned a 5-4 margin over the Philadelphia Phils in a night game under protest at Brooklyn. Pee Wee Reese singled with the bases loaded in the 10th to give the Dodgers the win.

In an American league night ball veteran right-hander Sid Hudson limped Philadelphia Athletics to seven strikes at Washington Senators took a 5-2 decision.

YANKS, TIGERS WIN
New York power-packed Yankees, meanwhile, pounded Boston Red Sox pitchers for 11 hits, seven for extra bases, to whip Sox 10-2, and the rampaging Detroit Tigers wreathed a hard-earned 8-6 decision in 10 innings from St. Louis. Pollet pitched for their sixth win.

Pollet lost a shutout game about in the third frame when Musial dropped a fly ball which would have made the third out and outfielder Johnny Wyrostek tripled, scoring two runners and putting the Reds in front 2-1. Musial made up for that error in the fifth, however, when he drove across the tying run with a three-bagger, Elmer Naeffinger then brought Musial home with the winning marker.

Included in those seven-base hits by Yankees were two circuit blows by Hank Bauer and Yogi Berra. Win was the Yankees' third over Sox in four meetings this year.

MCMENOTT CHASED
Young Maury MCMenott, born the bust of the New York state as he yielded five runs in less than two innings before he gave way to Matt Masterson.

Detroit jumped on hurler Cliff Fanning for five runs in the second inning. Brooks pulled to tie the score but Detroit rallied across two runs in the overtime inning to clinch the victory.

Singles by George Kell and Pat Sullivan followed a walk to Ed Lapon to account for the deciding markers. The Browns Ken Wood blasted a homer in the fourth for the only circuit clout of the game.

Civic Golfers Meet
General meeting of the Civic Golfers golf club will be held tomorrow night, at 8:00 p.m. in the Council Chambers, Civic block.

NEW YORK — Ty Cobb's 24-year batting average was .367.

Dog Takes Jaunt
DEKAR, Ill., April 27.—(AP)—"Tiny," a dirty and hungry collie, bounced into the front yard of his home Tuesday, about 30 months after he had been given up for lost in Nova Scotia. The dog apparently had walked the 1,000 miles back to his owners. Dr. and Mrs. Edward H. Glenn, said Mrs. Glenn took the dog with her when she drove in Nova Scotia last June.

Marlboros Leave Home, Ready to Meet Calgarians

TORONTO, April 27—(CP)—

Toronto Marlboros enroute for Calgary last night with high hopes of repeating the feat of the last National Sea Ploa club of 18 years ago—winning the Allan Cup and the senior amateur hockey championship.

From a 4-0 sweep over St. John's in the first round, the Marlboros are set to meet St. John's in the second round.

Calgary Stampede battled to the Allan Cup in the 1968 cup final and lost out in 1967 to a powerful Montreal Royal crew.

The Western champions shorted out of Fort Frances, Ontario, in three final series after winning the first two games in the first round.

Calgary Stampede, however, lost to St. John's in the second round.

From there on it was no contest, although Fort Frances managed to hold them to a 4-0 win in the final.

The Eastern Canada team, however, did not play in the final.

St. John's, however, did not play in the final.

12 EDMONTON BULLETIN, Thursday, April 27, 1968

SCHOOL WRESTLERS SHORT OF MONEY

Edmonton public school wrestlers are going to make a bid for provincial title honors in a tournament being held in Calgary at the weekend.

In charge of the group leaving tomorrow is Phillip Brown. Making the trip with him are Allan and Larry Shelton, Malcolm McGregor, Keith Jirsch and Ed MacCormack.

Although many more are eligible, the Edmonton School Boxing and Wrestling board lacks sufficient funds to send anyone else down.

But, as in the case of MacCormack who is making the trip on his own, a wrestler can go to Calgary by having his own way.

FORCE SEVENTH GAME

Monarchs Deadlock West Coast Finale

NEW WESTMINSTER, B.C. April 27—(CP)—Los Angeles Monarchs last night struck down New Westminster Royals 3-0 to extend the Pacific Coast hockey finals to a seventh and final game.

Monarchs snapped an 11-game losing streak in the series and moved to a 3-2 lead in the best-of-seven series.

Los Angeles Monarchs, however, did not play in the final.

Cross Fastball Chief at Hanna

HANNA, April 27—Bill Chase was elected president of the newly formed Hanna Softball Association, at a meeting held here recently.

Also elected to an official capacity was Al Grever, who will handle the chores of secretary-treasurer.

The new league will consist of four teams — C.N.F., Kinsmen, Meadowslands and Kinsmen Legion. Games are underway for a new ball diamond.

Montreal Alouettes Coming West

MONTREAL, April 27—(CP)—Montreal Alouettes Canadian football champions will meet Calgary Stampede in an exhibition tilt at Calgary next April, 1969.

Alouettes, who won their first Grey Cup in 1956, are being defeated by the Stampede in a series of exhibition games.

Stampedeurs Due For Rough Time

CALGARY, April 27—(CP)—If Calgary Stampedeurs expect to win the Allan cup this year they'll have to put their hockey machine into high gear, says Manager Lloyd Turner.

Toronto Marlboros are going to be tough.

Turner, who has managed hockey clubs and risks for the last 25 years, isn't too proud of the team.

Stampedeurs put through the last two rounds of the playoffs leading to the Canadian senior hockey final. Marples and Stampedeurs start the best of seven final here Monday.

The statistics don't look too bad. Calgary won the best-of-seven series with Kamloops. Elvins and eliminated Fort Frances Canadians by the same margin.

But they were a 10-0 record in the first round.

Calgary won the first game of the series by a 6-0 score and then rolled along for four straight wins. They beat Canadians 11-0 in the first game and then dominated the second 5-0.

Turner indicated his non-egoistic, no-nonsense style of play would be good enough against the Marples.

Coach Bush McDonald suggested that some of Calgary's trouble may have been that the boys were too confident. They didn't feel as though they played like mention Flyers in an earlier play-off and came up with some sparkling hockey in a 4-0 game win.

"If we can only play as well against Toronto as we did against Edmonton we shouldn't have any trouble," said Turner.

Coach McDonald makes no predictions. The 1968-69 season was a centre until the middle of the season, when he suffered a swollen leg during a game with Saskatchewan Quakers.

Towards the end of Western Canada senior league season Stampedeurs coach, Harry Burke, resigned and said reports that players were reeling against what they considered his hard-driving tactics.

Lloyd Turner took over the reins for a time and then called in McDonald to handle the coaching chores.

the KITCHEN...

By Jane Scott

hen Junior's a wee tottler he's the guy who rules the kitchen. And he's the guy Mom has to be specially careful in menu-planning time comes around.

Food habits developed in the first six months of a child's life influence strongly his health and growth for the rest of his life. Part of the "good times for babies" story is that parents are told to make mealtimes fun, to see a good example in their own food habits and encourage their child to eat.

Lillian Fern Guthrie Wed Here In Double-Ring Bridal Service

Double-ring ceremony performed yesterday morning at St. Luke's Anglican Church united Lillian Fern Guthrie and Harvey J. Pennday.

Rev. A. Watts read the marriage and a couple of gardenias and violets for the daughter of Mr. and Mrs. W. J. Guthrie of Edmonton.

Mrs. A. Allen, who also received a corsage of gardenias and violets, chose a navy outfit with matching hat in Edmonton.

The bride was escorted by her father to an altar decorated with bouquets of spring flowers.

The groom, dressed in a tuxedo, was escorted by his best man, Mr. W. H. Collins.

The ceremony was performed by Rev. A. Watts, who also read the marriage vows.

The bride and groom were joined in a double-ring ceremony, and the ceremony was performed by Rev. A. Watts.

The ceremony was performed by Rev. A. Watts, who also read the marriage vows.

accessories and a pink rose comb. Popular featured carved wedding rings, combining palladium and gold have broken a 12-years' record, countered the inter-laid table, which was decorated with sweet-heart roses and tall white tapers.

Miss Ruth Burre and Miss Marjorie Allen poured coffee. Mr. Pennday proposed the bride for the first time, and the bride accepted.

For travelling, the bride wore a matching gingham coat and apron. The bride and groom were joined in a double-ring ceremony.

Withheld Honors Can Save Day

By William E. McKenney
Thinking the king, queen and a small card of a suit, most players would hesitate to play either the king or queen fourth hand. If the ace had not appeared on the trick, those who would not have done so on today's hand are the players who study each hand carefully at the very beginning. This

gives them a safety insurance that pays dividends at the end. East won the opening lead of the jack of diamonds, with the ace South, counting his tricks, could see three or four spades, one heart, two diamonds and an undetermined number of club tricks.

East returned the jack of hearts. At first this appeared a welcome lead, as it would give West a chance to lead early in dummy for the needed club finesse. However, a lead study showed him a pitfall. It would establish a winning line

Committees for Year's Projects Named at Recent UCTA Meet

Committees of the United Commercial Travellers' Auxiliary for coming year were named at April business meeting recently.

Mrs. E. Butterworth and Mrs. E. Truitt will head patrol committee; Mrs. J. W. Lakeland, promoter; Mrs. T. J. Stevenson, and Mrs. Edgar E. Nubels, floor monitors; Mrs. J. M. Cumming and Mrs. Stevenson, Cancer Fellowship; Mrs. F. D. Paterson, Friendship Club; Mrs. William Hornbeck, aid and sympathy; Mrs. William A. Weston and Mrs. George Burton, sick and visiting.

Press reporter will be Mrs. Edgar E. Nubels; hospital committee, Mrs. H. B. Rose, Mrs. Gerald Rice, Mrs. F. M. Walden and Mrs. G. Keith. Refreshments will be supervised by Mrs. T. A. Davison and Mrs. W. G. Heathcrist; entertainment, Mrs. A. E. Austin, Mrs. H. J. Hoban, Mrs. M. E. Norman and Mrs. E. T. Trainor.

Telephone committee is Mrs. R. C. Weyman, Mrs. J. W. Lakeland and Mrs. A. P. Smart.

COUNSELOR WORK
New senior counselor, Mrs. D. Alison in the heart suit if the club queen was held by West—so in South, counting his tricks, could see three or four spades, one heart, two diamonds and an undetermined number of club tricks. East returned the jack of hearts. At first this appeared a welcome lead, as it would give West a chance to lead early in dummy for the needed club finesse. However, a lead study showed him a pitfall. It would establish a winning line

Weddings Made Easy With Ready Gowns

LONDON.—(UPI)—Two wedding dresses have been obtained by the Far East Air Force for the use of airwomen who may marry during their tour of duty in the Command. The two dresses are of different design, in white figured satin, complete with veil and coronet wreath of orange blossom.

Western Rose Tea May Day Event

Card tables and tea tables will be set up in the Empire Room, 1101, May 1 for the Spring tea of the Western Rose Ladies' Lodge.

Sale of home cooking and handwork will be featured. Mrs. J. Murray will convene the tea, which will start at 2:30 p.m. Mrs. G. Parker will be in charge of the sewing tables, Mrs. D. Taylor and Mrs. H. Dain will be in charge of the home cooking.

Refreshment committee includes Mrs. J. Scollan, Mrs. L. Colborne, Mrs. E. Farnow, Mrs. J. Graham and Mrs. D. Plink. Treasurer will be Mrs. M. Gane.

Final arrangements were made at a recent meeting of the lodge. Mrs. L. Dainty presided.

Mrs. H. Cunningham was welcomed as new member.

Postmaster: the lodge will take charge of the next meeting.

Intermediates

Phiasias, a disease of man, has been found in the mosquito as intermediate host. Lethal gas is used to execute the malarial, a disease of man, in the mosquito.

Parties And Gaiety End Training Period For General Grads

Starbed, white uniforms and caps will be exchanged for party frocks when graduation time rolls around for 38 lucky girls of the Edmonton General Hospital School of Nursing.

After a three-year grind of books and hospital duty, the graduates look forward to a round of entertainment in their homes.

Some to the graduation reception, others will join a mother and daughter banquet at the hotel, May 4.

May 2 is the date set by the hospital alumni association for the only banquet and dance of the Edmonton hospital.

AT 11:00 PM to 11:30 PM

Out of a Can of Salmon—a Thrifty Meal for 6

Alberta Greatest Seed Producer

T. E. Toohey Of Capital Seed Speaks From Experience

Alberta has become in recent years the greatest seed producing province in Canada.

That is the opinion of a pioneer Edmonton resident, T. E. Toohey, proprietor of the Capital Seed Company.

The company moved recently to the new Towne building at the southeast corner of 99 street and 101 avenue where the modern, completely fireproof structure is a complete importation from Holland but it is blended and broken down with spirit in the United States.

Mr. Toohey has headed the business since its formation in 1926, but has early as 1912 he sold seed on the market square in Edmonton.

HELED ON U.S. He recalls that in those early days seedmen here relied very largely on seed imported from the United States and five eastern states.

"Local production," says capital seed company president, "has increased steadily since 1945, and now we produce approximately 50 per cent of the seed used in Alberta. The United States and five eastern states still supply the remainder."

A big reason for the increase, says Toohey, is the fact that the United States and five eastern states have been producing more seed since 1945. "The United States and five eastern states have been producing more seed since 1945," he says, "and now we produce approximately 50 per cent of the seed used in Alberta. The United States and five eastern states still supply the remainder."

DEMAND EXPECTED Heavy demand is expected to continue this year, and Toohey expects the seed business to continue to grow. "The demand for seed is expected to continue to grow," he says, "and we expect to continue to grow."

Building, financing and processing seed is a big business, says Toohey, and it is a business that is growing. "The seed business is a big business," he says, "and it is a business that is growing."

Frozen Apple Juice Helps B.C. Growers

VANCOUVER, B.C. — (C.P.P.)

Frozen apple juice may give British Columbia's apple industry a big boost.

C. B. Powell, Canadian field broker just returned from California, reports experiments now being made in freezing and bottling.

"Frozen orange juice has been India has approximately 200,000 tons of oranges, exclusive of districts."

"The United States and five eastern states have been producing more seed since 1945," he says, "and now we produce approximately 50 per cent of the seed used in Alberta. The United States and five eastern states still supply the remainder."

"The demand for seed is expected to continue to grow," he says, "and we expect to continue to grow."

"The seed business is a big business," he says, "and it is a business that is growing."

Demand For Minor War Medals Lags

BY JOHN DOWNEY
Exclusive to the Bulletin

OTTAWA—(C.P.P.)—Government officials complained today that

World War II veterans who earned only one or two medals were not

models to apply for them.

"The hardest campaigner who

to submit his application when dis-

tribution of medals started last Oct.

Department of Veterans Affairs

officials said. But the veterans who

never got past the rookie stage

awards.

Some 25 percent of the veterans

who earned five or more medals

had applied, but only 30 per cent.

At Free Press newspaper the Africa

of men-of-war winners, had gone to

Star, Pacific Star and Burma Star.

Nearly all navy veterans earned

the Atlantic Star, which also went

to members of the Royal Canadian

who earned five or more medals

had applied, but only 30 per cent.

At Free Press newspaper the Africa

the trouble of writing the depart-

ment. Some naval veterans, however, also

served in the Pacific.

DVA officials said they had re-

ceived reports that medals were re-

turning up in pawn shops across

the country. Most of the medals

were bringing only 30 cents, with

little demand for them.

The owner's name was not stamp-

ed on the back, as was done with

World War I medals, making them

easier to pawn.

Water polo was developed in

1870 by an Englishman.

Some 25 percent of the veterans

Consulates Closing

PRAGUE, April 27.—(Reuters)—

Czechoslovakia is to close her con-

sulates in London, Paris and Bul-

garia. It was announced here Wed-

nesday night. The functions of the

consulates will be taken over in

London and Paris by the Czechos-

lovak embassy and in Budapest

by the Czechoslovak legation.

Brazil, with an area of 3,280,370

square miles, has an estimated

population of 45,450,000 in 1948.

W. W. Sales Building

Archibald Drug Founded In 1902

Barber Shop, Supply Store
And Studio In New Building

Smart modern drug store which now faces market square in downtown Edmonton has a history almost as lengthy as the square itself.

The new five-story building, which occupies the main corner of the new Tootsie Building at 99 street and 102 avenue is a branch of the pioneer firm, the Archibald Drug Co.

The firm was founded in 1902 at Edmonton and has served the community consistently since then. Another store, operated by the same firm, is located at 10217 Jasper avenue.

FOUR OTHER STORES

While the spacious corner of the new Tootsie Building provides Archibald's Drug Store with ample room for its stock and displays, the building also accommodates four other stores in addition to the Capital Seed Company.

In addition, the Archibald Drug Store on 102 avenue is Louis' Barber Shop where smart new premises and modern equipment should draw Edmonton trade.

Another store in the same building is the J. and J. Home and Auto Supply where a very large stock of hardware will be carried. The store fronts on 102 street.

Towhey building will also accommodate a hair and beauty studio where expert dress will be assured of excellent service.

YOUTHS WITH MULTI-HUED HAIR EXPELLED

NEW WESTMINSTER

B.C. April 27.—(CP)—Junior high school students attempted to establish a "mopch head" today—and failed.

Four male students were suspended and another 10 sent to the showers when they arrived with green hair, blue hair, scarlet hair and bleached hair.

Things with bleached hair were told not to return to school until it had been cut off; the others were told to remove the dye immediately.

Briton Leaves Paper Position For Public Work

LONDON, April 27.—(Reuters)—Lord Layton, vice-president of the Council of Europe, is resigning as chairman of the Liberal morning newspaper, News Chronicle, and the London Evening Star in order to devote time to public duties, it was announced today.

The News Chronicle said Lord Layton, 66, had been compelled to relinquish the day-to-day direction of the two newspapers because of pressure of public work.

He will be succeeded by T. J. Cadbury, chairman of the chocolate manufacturing company and present vice-chairman of the News Chronicle and Star.

Dutch Painters Protest Plan

THE HAGUE, April 27.—(The Press)—An association of Dutch painters last night protested against proposals in parliament to send to the Canadian people a painting by Meinert Hobbema (1668-1709) as a mark of gratitude for their part in the liberation of The Netherlands.

The association said the painting, "The Watermill," is one of only four in the possession of Dutch museums, and, describing the work as a "very precious possession of the Dutch people," suggested that an alternative gift be found.

Bar Refusal Holds For Red

VICTORIA, B.C., April 27.—(CP)—The right to practice law in British Columbia yesterday was denied again to Joseph Gordon Martin, a self-admitted Communist.

Appeal court here dismissed the graduate law student's appeal against refusal of the Provincial Bar Association to admit him to the bar. The unanimous decision bars Martin from appealing to the Supreme Court of Canada.

Mr. Justice G. H. O'Halloran in his reasons for judgment upheld the Society of Benchers' claim that Martin, a Communist, is not fit to practice law as an advocate, as required by the legal profession act.

Newspaperman Dies

OTTAWA, April 27.—(CP)—John Gladstone Grace, 86, veteran Ottawa newspaper man, died at his home yesterday. He contributed many articles on Canada to United States newspapers and magazines and was regarded as an authority on Irish affairs.

This Year's Potato Crop Likely Bigger Than 1949

Bigger potato crop than last year is expected in the Edmonton district this season. W. A. Lobay, provincial supervisor of crop protection, estimated today.

About 2300 acres of land in this area will likely be used for potato increase the yield to at least 100 tons an acre, Mr. Lobay said. Some more than 2100 acres were planted to potatoes in 1949.

The expected increase will likely result from the fact that regular commercial growers of potatoes are increasing acreage this year.

OFFICIAL INSPECTION

Commonwealth survey must be made, certified as being free from bacterial rot, Mr. Lobay said. Commercial potatoes are to be tubed only under permit, and inspection of fields will be made by the department of agriculture.

Last year the Edmonton district potato crop averaged a yield of about one and a half tons per acre. This year, if growers use good seed and growing conditions are favorable, it may be possible

Armed Assault Brings 10 Years

NEW WESTMINSTER, B.C.

April 27.—(CP)—Abin Roy Le Tou of Vancouver yesterday drew a 10-year penitentiary sentence when he pleaded guilty to armed assault last April 3 on Robert A. Jack, acting manager of a branch of the Bank of Montreal.

Le Tour testified he had intended to rob the bank but had no intention of shooting Jack.

"I never even felt the gun go off," he said.

Jack was released from hospital yesterday. A bullet passed through his body when he scuffled with Le Tour during the attempted holdup.

RCMP CLING TO HARNESS

OTTAWA, April 27.—(CP)

—The longer a man is in harness the more reluctant he is to leave.

This was shown today in a report tabled in the Commons by Justice Minister Gwynne for John Doolenbaker (CPC—Lake Centre).

Mr. Gwynne said that of 1340 RCMP officers recruited in the last four years, 215 left the force of those 80 left during the first year of service, 72 in the second year, 44 in the third year and only one in the fourth year.
